Jali Break at Socorro.

The jall birds of Socorro, according to the Chieftain, have been perfecting plans for a general escape. Two of the prisioners, Jim Doyle and Jim Campbell, made their escape while engaged in the pump house, supplying the public buildings with water. When recaptured, a key was found in their possession. This caused Sheriff Russell to search all of the prisioners. He found three bottles two of which had confained sulphuric acid and one nitric acid. Besides this, tiles and saws made of corsest steel and boot soles were found in their possession, several being found sewed up in the dress of the notorious Sus Younkers. In the murderer's cell, where were confined those men sentenced to be hung, two awaiting trial for murder, and five for horse stealing, it was found that a slab of iron 14 x 18 inches had been cut out of the floor and hid away in the corner. Work had already begon to soften the cement floor beneath, so that the stones in the foundation could be removed and egress be effected. The sheriff concluded that aid must have been afforded from without, and suspicion fell upon a young man named Chavez, who had previously been confined in the jail for larcency, and upon young Price, the son of a law yer then in the jail on the charge of embezzlement. They confessed having furnished some of the supplies. The supposition is that the steet window screens of the wash room were sufficiently loosened te admit of the passing in of the articles from the outside world. A note was found upon the person of one of the condemned murderersanderessed trace who, Franks, who had been released but a few days before. It instructed Franks when and where to be ready with horses for the escape of the party. The discovery very much dampened the hopes of the prisoners, who certainly had concocted a good scheme and had worked long upon it. But them "The hast laid plan plans for a general escape. Two of the prisioners, Jim Doyle and Jim Campvery much dampened the hopes of the prisoners, who certainly had concocted a good scheme and had worked long upon it. But then, "The best laid plan of mice and men at gang agiee." It is now the opinion of several well informed persons who have been investigating the matter, that Sue Yonkers is no more nor less than the original Kate Bender, the kansas female hend.

Socorro Properties. The Daily Chieftain.

Well informed persons say that there will be at least one hundred per cent. more work done in the Magdalena district this year than at any time in the past, and capitalists in all parts of the country are turning their attention to that favored mineral section. It is admitted on all hands that Socorro and the surrounding country will enjoy a great boom during the fall and winter months, which will insure great prosperity for this city for all time to come, and it will be under full headway by the close of the summer months.

Our Cont Fields.

The anthracite and bituminous fields of Sauta Fe county, New Mexico, cover 15,000 acres, a large part of which is underiaid by six distinct vains of anthraderisid by six distinct vains of anthracitie coal varying from two to four feet in width. The coal beds are found between the Rio Galisteo and the Rio Santa Fe, and are about twenty-live miles southwest of Santa Fe, and not very far from Cerrilios Station, on the Santa Fe road. They are known as the Los Cerrillos beds. The coal is hard, dense and of brilliant luster, and is said to be, so far as its applications for all practical purposes is concerned, fully equal to the best Pernsylvania anthracite.

We offer no apology for devoting so much time and attention to this much-neglected class of diseases, believing that no condition of humanity is too wretched to merit the sympathy and best services of the profession to which we belong, as many are innocent sufferers, and that the physician who devotes himself to relieving the afflicted and saying them from worse than theath, is no less a philanthropist and a benefactor to his race than the surgeon or physician who beyone application excels in any other branch of his profession. And, fortunately for humanity, the day is dawning when the false philanthropy that condenned the victims of folly or crime, like the lepers under the Jewish law, to die uncared for, has passed away. YOUNG MEN

Who may be suffering from the effects of youthful folies or indiscretions will do wall to avail themselves of this, the greatest boon ever laid at the aitar of suffering humanity. Dr. Wagner will guarantee to forfeit \$500 for every case of seminal weakness or private disease of any kind and character which he undertakes to and falls to cure.

MIDDLE-AGED MEN

There are many at the age of 20 to 60 who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation, and a weaken ing of the system in a manner the patient can not account for. On examining the urinary deposits a ropy sediment will often be found and sometimes small particles of albumen will appear, or the color will be of a thin, milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the 'e-coud stage of seminal weakness. Dr. W. will gnarantee a perfect cure 'n all cases, and a healthy restoration of the gunito-urinary organs.

Consultation free. Thorough examination and advice \$5.
